Data Scientist

PROFESSIONAL SUMMARY

Data scientist with 4+ years experience in machine learning, statistical analysis, and big data processing. Expertise in Python, R, and deep learning frameworks.

TECHNICAL SKILLS

Python • R • TensorFlow • PyTorch • Pandas • NumPy • Scikit-learn • SQL • Tableau • Spark • AWS • Docker

PROFESSIONAL EXPERIENCE

Senior Data Scientist | DataTech Solutions | 2022 - Present

- Developed ML models improving customer retention by 25%
- Built real-time recommendation system processing 10M+ events daily
- Led A/B testing framework increasing conversion rates by 15%
- Mentored junior data scientists and established best practices

Data Analyst | Analytics Corp | 2020 - 2022

- Analyzed customer behavior data to identify growth opportunities
- Created interactive dashboards for executive reporting
- Implemented automated ETL pipelines processing 1TB+ daily

EDUCATION

Master of Science in Data Science | Tech University | 2020

Bachelor of Science in Statistics | State College | 2018

KEY ACHIEVEMENTS

- Reduced model training time by 50% through optimization techniques
- Presented research at 3 international conferences
- Developed forecasting model with 95% accuracy

CERTIFICATIONS

Google Cloud ML Engineer • Tableau Desktop Certified
